

# Office Memorandum • UNITED STATES GOVERNMENT

TO :

FROM : RPS

SUBJECT:

DATE: 15 Jan 48

show  
1.  charts x/x echo will become more pronounced  
on 18 mc  freqs during February.

2. We have available 11095 and 12022.5 for  which  
chart shows as "good" 1800-0800 GMT during February. We have set  
aside 11095 for possible use on  but may possibly be able to  
utilize 12022.5 since, thus far, it has never been tainted on SA  
circuits.

3.  is now conducting interference monitoring tests  
on the usable hours on both  and South American circuits.

4.  being advised.
